## DETAILED ACTION

### ***Restriction Requirement***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-6, 11-23 and 44-46 drawn to a process of making a film.

Group II, claim(s) 8, 24-32 and 64-82 drawn to a process of making a multilayer film.

Group III, claim(s) 7, 9, 10, 33-43, 47-63 drawn to a process of making a film comprising a microencapsulate component.

The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I drawn to a process of producing a film comprising at least one water soluble polymer and one gas-forming agent in an aqueous medium is not Applicant's contribution over the art. Pearce et al. (US 2003/0224090) discloses incorporating sodium bicarbonate in a candy where the candy is formulated into a film. The compositions are made into solutions, cast or poured and then dried.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does

not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
